- 4) Any car causing two yellow flags in a race will be sent to the pits.
- 5) If you are the third car that makes a 3-wide situation, and if any type of incident occurs, you will be considered involved even if you did not make contact with another car.

All personal Trucks, Cars and Trailers **must** be parked outside pit areas in designated parking lots. Some divisions may be parked in the upper pit area. Camping will be permitted on the fairgrounds. There is no camping allowed in lower or upper pits. No one is allowed overnight in the pit area after each evening's races (officials will clear the infield).

Some divisions are subject to time limits for their events. **Spotters** have the top two rows of the West elevated front stretch grandstand for "their" events only. WHAT TO DO WHEN YOU ARRIVE AT SPEEDWAY

1) Park your hauler in the "hauler staging area" along the pit entrance road, or in the Hauler Parking area on the south end of the main gravel parking lot just off of county Road M.

5) We will help you park, but be aware of where your division is parking in the pit area (see map in this book). **IMPORTANT: To speed up your entry into pits, have one of your crew members get his/her pit pass in advance, he then can pull the car/hauler directly into the pits. We will attempt to cross traffic every 20 minutes at pit gate once cars hit the track (applies to practice and qualifying). We know you are in a hurry and we will do our best to get you in (or out) as fast as we can. We appreciate your patience and participation.**

This class will have an established breakout time of 22.000 seconds. Drivers will be allowed two 'Mulligan' per race, in which they can be under the set time. At that moment they will be warned but able to maintain their running position on track. If driver surpasses the 22.000 second mark a third time, in the same race, they will be disqualified from the event and scored and payed at the rear of that event. Any driver turning a lap faster than 22.000 on the last lap will be relegated to the rear of the field and scored in that position. Race line-ups will be set by qualifying. A dice roll, plus an inversion of 6, and the previous event's finishing positions will determine feature line ups. Heat races will be based on qualifying and inverted. Any driver deemed to brake-check in the racing groove will be disqualified. The yellow flag will be displayed if race control feels there is a two team "block" happening during the race events. The drivers deemed to be blocking, and force the yellow, will be treated as though they have broke out. Any stock stub car (to firewall) may run any engine/ carb combination they wish. Fabricated stub cars must run stock 602 GM Crate Engine with a maximum 650 carb. Absolute min weight 2650#. May run any treaded Hoosier tire which fits on an 8" wheel. **Rule Chair-man: Barry Folgate, 608-344-0338, Email: info@lacrossespeedway.com**

PLEASE REMEMBER that we will need at least an hour to clear the pits. **DO NOT** bring your haulers down to the pit gate for at least **ONE HOUR** after current events are over. That will only further congest parking. We will pre-park for one hour only. Thanks!

HAULER & RACE CAR PARKING/STORAGE:

If you do not have a number, see *How to get a TIN*, later.

Note: If the account is in more than one name, see the instructions for line 1. Also see *What Name and Number To Give the Requester* for guidelines on whose number to enter.

Under penalties of perjury, I certify that:
